HAWAII KONA CAPTAIN COOK

Pure Hawaii Kona Captain Cook: this precious coffee from the archipelago of Hawaii is grown in volcanic plantations in the area of Kona.

The right proportion of rain and sunshine, plus the very peculiar weather phenomenon of the local cloudy afternoons forming some sort of natural canopy above the plants, make a perfect climate for a very rare coffee.

Tasting notes

A coffee for real connoisseurs, with a gentle aroma, a good body and a mild and extremely sweet flavour with scents of dried fruit, liquorice and faraway spices.
