PUERTO RICO YAUCO SELECTO

Pure Puerto Rico Yauco Selecto: this Gran Cru coffee comes from the Caribbean Sea and is grown on the mountain slopes of the region of Yauco, to the South-West of the island of Puerto Rico. This particular variety gives great results in the cup, in terms of perfect balance and structure. In a few words: “Extraordinary”.

Tasting notes

This precious Puerto Rican selection has a full aroma, an important body and a refined taste; its bitter cocoa notes are counterbalanced by intense sweet flavours of cream and roasted malt. Pleasant hints of spices emerge in the after-taste.
