

NO LIMITS
Decaffeinated Arabica and Canephora

*Decaffeinated
coffees*

*Say goodbye to caffeine,
but never to the pleasure of true Italian espresso*

BRASIL

100% Brazilian decaffeinated Arabica

Santos, the famous Brazilian coffee with a sweet full body and a barely present acidity. It is a natural Arabica, characterized by a delicate aroma with scents of roasted peanuts and a light tinge of cocoa. All this, yet decaffeinated!

Cocoa and
roasted peanuts

DEKA ACQUA

100% decaffeinated Arabicas from South America and India

A blend of precious 100% Arabica sorts decaffeinated through water processing. The organoleptic analysis reveals delicate flavours, such as ripe fruits and milk chocolate, whereas in the after-taste a scent of liquorice can be found.

Milk chocolate
and liquorice

DEKA ESPRESSO

65% decaffeinated Arabicas from South America- 35% Asian decaffeinated Robustas

Decaffeinated coffee blend, containing both Arabica and Robusta, especially studied to give its best in the Italian espresso extraction. Also available in individually- packaged pods. A coffee with an excellent body and a unique texture. Its cream spreads notes of cocoa and nuts, more marked in the early tasting stage, which then change into scents of almond paste towards the end.
